At AECOM, we are committed to delivering a better world. We empower our team members to innovate and make a positive impact in our communities and for our clients. Our projects are both challenging and rewarding and include the full spectrum of engineering design, consulting, construction, and operation.

As a long standing supporter of CAPCA and its member companies, AECOM delivers targeted, innovative and practical solutions based on sound science, balancing technical, business, and sustainability concerns. At the forefront of technical air quality leadership for more than 47 years, our global air quality practice comprises over 400 professionals (50 in the Southeast) in 8 countries and 6 continents. AECOM creates, enhances and sustains the world's built, natural and social environments.

Agility, Fortitude, Peace-of-Mind

TRC stands for adaptability. With direction setting perspectives and partnerships, our 8,000+ tested practitioners in advisory, consulting, construction, engineering and management services deliver unique resolutions that answer any built or natural imperative. By creating new pathways for the world to thrive, we help our clients adapt to change and achieve long-lasting results while solving the challenges of making the Earth a better place to live — community by community and project by project.

Fall 2026 Workshop
Conference Agenda
Visit www.capca-carolinas.org for the latest workshop information.

Wednesday, October 21, 2026 - Morning

8:30AM - 11:30PM - Workshop – Chemical Reporting (Pre-registration and additional fee required)
(Hilton Ballroom West - Main Hilton Building / Above Front Desk)
(Session Chair: Mark Hawes, CAPCA Past President)
E. Stefan Coutoulakis, NC Department of Public Safety Division of Emergency Management, Hazardous Materials Coordinator
Jacob Bugiera, Senior Consultant, Trinity
This workshop will provide detailed instruction on how to determine applicability of and conduct reporting for TRI and Tier 2.

10:00AM – 4:30PM – Registration (Atlantic View - Main Hilton Building / Mezzanine Level)

11:30AM – 1:30PM – Young Professionals Committee Lunch Meeting
(Hilton Ballroom East - Main Hilton Building / Above Front Desk)
This luncheon affords the opportunity for new and established young professionals and CAPCA attendees to network and be introduced to the Fall Conference and the role of the Young Professionals committee. (RSVP Required)

Wednesday, October 21, 2026 - Afternoon Technical Sessions

1:30PM - 1:40PM - Conference Welcome & Introductory Remarks (Palisades ABC - Building Adjacent to Hilton)
Robert vandenMeiracker, CAPCA Vice President and Program Committee Chair

1:40PM - 3:00PM - Hidden in Plain Sight: Common Regulatory Programs that are Often Overlooked
(Session Chair: Melvin Stroble)
Zach Carfley, Program Manager, SC DES
Heather Carter, Regional Supervisor for the Division of Air Quality, NC DAQ
Kris Waikins, Regional Environmental Manger, West Fraser
Even experienced compliance teams can be challenged by lesser-known Clean Air Act requirements that create risk for utilities and manufacturers. This interactive panel brings together regulators from North and South Carolina alongside an industry representative to examine often-overlooked compliance requirements related to RICE MACT, refrigerants, ODS, HFCs, asbestos, PFAS, and other emerging regulatory issues.

3:00PM - 3:30PM - Break (Exhibit Hall)

3:30PM - 5:00PM - When Things Go Wrong: Combustible Dust, Emergency Response, and Surviving an Inspection
(Session Chair: Margeaux Sembos, CAPCA Treasurer)
Chris Giusto, National Director - Combustible Dust Safety, Hallam
Rachel Hawkins, Director of Integration, ES Integrated
Kim Fail, Senior Engineer/Project Manager, TRC
Failures in industrial operations can escalate quickly, especially when multiple risk areas intersect. This fast-paced session examines key areas—combustible dust hazards, emergency response, and regulatory inspections—and focuses on key risks, regulatory expectations, and practical compliance strategies. Attendees will also gain actionable insights to improve preparedness, response, and inspection readiness.

Wednesday, October 21, 2026 - Evening Events

5:15PM - 6:30PM - Young Professionals Committee Cornhole Hour (Hilton North Lawn - Adjacent to Pool)
CAPCA's Young Professionals Committee is hosting an hour of relaxation and refreshment. Before heading to the Wednesday evening symposium/dinner, join the young professionals for a round of cornhole, a cold drink, and a bit of conversation. Meet someone new or challenge a colleague to a friendly competition. This event is open to all CAPCA members. **Thank you ALL4 for being a Young Professionals contributor. Thank you Sean Coury for providing the entertainment.**

6:30PM - 8:30PM - Symposium by the Pool
Thank you Eastern Technical Associates for providing the DJ.

Thursday, October 22, 2026 - Morning Technical Sessions

7:30AM-8:30AM – Breakfast in Exhibit Hall - Palisades EFGHI (Building Adjacent to Hilton)

8:00AM-4:00PM – Registration (Atlantic View II - Hilton - 2nd Floor)

8:30AM - 8:40AM - Welcome & Introductory Remarks (Palisades ABC - Building Adjacent to Hilton)
Session Chair: Amy Marshall, CAPCA President

8:40AM - 9:20AM - Update on Agency Actions Including NAAQS Reviews
(Session Chair: Rob vandenMeiracker, CAPCA Vice President)
James Boylan, Air Protection Branch Chief, GA EPD
Status of the current NAAQS, the standards setting and designation process, GA EPD's efforts to remove exceptional events during the designation process, and how the regulated community can get engaged.

9:20AM - 10:30AM - NC and SC Air Quality Updates
(Session Chair: Taylor Hartsfield, CAPCA Director)
Mike Abraczinskas, Director, Division of Air Quality - NC Department of Environmental Quality (NC DEQ)
Rhonda Banks Thompson, P.E., Chief Bureau of Air Quality - SC Department of Environmental Services (SC DES)
These presentations will provide an update on air quality activities in the South Carolina Department of Environmental Services (DES) and the North Carolina Department of Environmental Quality (DEQ).

10:30AM - 11:00AM - Break in Exhibit Hall

11:00AM - 11:25AM - NC and SC Air Quality Updates Q&A Session
Use the Whova app to submit questions for our morning speakers

11:25AM - 12:00PM - Industry Group Perspective: Regulatory, Legislative, and Economic Developments Affecting Manufacturers
(Session Chair: Mallory Sparks, CAPCA Secretary)
Kelley Spence, Senior Director - Air Quality Programs, American Forest and Paper Association
Join us for a timely discussion of the manufacturing and economic outlook across North and South Carolina. Drawing on experience from both industry and government, this interview-style session will examine the key regulatory, legislative, and policy developments affecting manufacturers today. Topics will include recent federal air regulatory initiatives, activity on Capitol Hill with potential implications for industry, and significant court decisions that continue to shape administrative agency authority and the federal regulatory landscape. We will discuss practical implications for regulated facilities, anticipated compliance challenges, and how industry is responding to an evolving legal and regulatory environment. Attendees are encouraged to submit questions in advance through the Whova app, as the session will be presented in an interactive interview format designed to address the issues most relevant to manufacturers and industry stakeholders.

Thursday, October 22, 2026 - Afternoon Technical Sessions

12:00PM - 1:00 PM - Lunch (Hilton Ballroom - 2nd Floor)

1:00 - 1:30 PM - Program Committee Meeting
(Session Chair: Robert vandenMeiracker, CAPCA Vice President)
All attendees are invited to share ideas and suggestions for future CAPCA programs. The meeting will be held in the back of the main meeting room.

1:00 - 1:30 PM - Young Professionals Meeting
(Session Chairs: Chance Shelley and Bill Kuriger)
Young Professionals are invited to share ideas and suggestions for future CAPCA programs. The meeting will be held in the front of the main meeting room.

1:30PM - 3:00PM - Permitting Projects in Your 5-Year Capital Plan
(Session Chair: Amy Marshall, CAPCA President)
Jessie King, Shareholder/Environmental & Real Estate, Maynard Nexsen
Brandon Mogan, P.E., Directing Consultant, All4
This session will walk through examples of how to consider projects in your 5-year capital plan for construction permitting under the New Source Review (NSR) program. In an interactive format, we will cover the following: defining the project, permitting strategies (avoiding versus triggering PSD, communicating the project to the public), project aggregation, permit exemptions, what analyses must be in a permit application, differences between NC and SC, and current NSR guidance (including begin actual construction and reactivation). Attendees will get reminders about important concepts in the NSR program and updates on the latest EPA regulatory and guidance activity in the context of “real life” project examples.

3:00PM - 3:30PM - Break (Exhibit Hall)

3:30PM - 4:00PM - How to do a Successful Stack Test from an Industry Perspective
(Session Chair: Victoria Morton, CAPCA Director)
Sanjam Singh, Associate Technical Consultant, All4
You have a stack test coming up, and it's been a while since the last one. What should you do to prepare? Join us to find out. We will review the do's and don'ts of stack testing preparation and common pitfalls that arise. Don't leave it to the last minute; start planning your next stack testing protocol now.

4:00PM - 5:00PM - Ethics for Professionals (& Insights for Clients)
(Session Chair: Pierce Werner, CAPCA Director)
Beth Partlow, Attorney, Law Offices Of Elizabeth B. Partlow, LLC
Ralph McGee, Principal, Hart & Hickman
The presentation will touch on the regulation of the engineering & legal professions with a focus on the topics of conflicts of interest and client confidentiality. The session will explore practical application of the rules and also include discussion beneficial for industrial clients to be aware of. At the conclusion of the presentation, both professional and client-side attendees should have an increased awareness of and greater familiarity with the rules applicable to such engagements. A certificate of attendance will be provided to those present who need to meet their PE continuing education ethics requirement.

5:30PM - 7:30PM - Carnival Night Symposium in Exhibit Hall (Exhibit Hall - Palisades EFGHI)

Friday October 23, 2026 - Morning Technical Sessions

7:30AM - 9:00AM - Breakfast in Exhibit Hall (Exhibit Hall - Palisades EFGHI)

9:00AM - 9:05AM - Welcome and Announcements
Amy Marshall, CAPCA President

9:05AM - 10:35AM - Artificial Intelligence in Environmental Practice — Practical Examples of How You Can Use AI to Assist You, and a Few Examples of How AI Can Provide Bad Results
(Session Chair: Robert vandenMeiracker, CAPCA Vice President)
Ilya Alimov, Technical Director, TRC
Jeff Wheeler, Managing Director, Air Techniques
Artificial intelligence is quickly moving from buzzword to daily workflow tool in environmental practice. This session offers a ground-truth look at how AI is being used today in air quality consulting — with real examples of what works and what does not. On the "works" side: document extraction from stack tests and PDFs, regulatory research assistance, anomaly detection in CEMS data, drafting support for repetitive reports, and gap analysis for permit submittals. On the "does not" side: real cases where AI confidently produced wrong answers, from hallucinated citations to misread data. The takeaway — AI is a powerful assistant, but professional judgment, verification, and human review remain non-negotiable for compliance.

10:35AM - 11:45AM - Data Centers: Energy Demand and Environmental Considerations
(Session Chair: Mark McIntire , CAPCA Director)
Christina Cress, North Carolina State Bar Board Certified Specialist in Utilities Law, Ward and Smith
Ben Snowden, Partner, Fox Rothchild
We covered power/energy topics in recent conferences but have not focused specifically on data centers — This session will include a panel discussion focused on the many challenges associated with data center development, from air permitting and water use to power demand, reliability, and onsite generation considerations.

11:45 AM - CONFERENCE WRAP UP, GIFT CARD DRAWINGS, ADJOURN

NOTICE: AN ELECTRONIC CERTIFICATE WILL BE E-MAILED TO CAPCA ATTENDEES.

SPECIALTY SERVICES

REDUCE YOUR ENVIRONMENTAL AND COMPLIANCE RISK

With a proven partner that delivers tailored, comprehensive air quality, environmental consulting, and compliance services to utility and industrial clients worldwide.

Air Quality Testing, Modeling, Permitting, and Monitoring

- Habitat and Wetland Surveys
- Agency Coordination and Permitting
- Environmental Justice Analysis and Community Engagement Support
- EHSS Management Software and Technology Solutions/GIS
- Climate Resiliency and Decarbonization Consulting
- Clean Water Act Engineering and Permitting Support
- Environmental Assessments
- Phase I/Due Diligence
- Site Characterization and Remediation
- Industrial Hygiene and Occupational Safety Evaluations
- Ecotoxicology Laboratory and Treatability Testing
- PFAS/Emerging Contaminants of Concern Assessments and Mitigation

Serving the Power Industry for more than 50 years!

We Are More Than Lawyers

At Earth & Water Law (E&W), we are more than lawyers – we're strategic advisors with unique experience who advance our clients' interests across a broad range of environmental and business platforms. We believe in big visions and big solutions without big legal bills.

In today's fast-paced environment, legal, regulatory, and policy challenges come from all directions. We help our clients stay ahead of the game.

E&W focuses its practice area on providing the following services:

- Regulatory Compliance & Permitting
- Settlement Negotiations (Superfund, CAA, CWA, Wetlands)
- Environmental Litigation, including Exposure and Cleanup of PFAS and other Contaminants of Emerging Concern
- Managing Hazardous and Toxic Materials and Wastes
- Environmental Reviews and Documents under Environmental Policy Acts
- Government Affairs, including Legislation and Rulemaking
- Civil and Criminal Enforcement Defense & Internal Investigations
- Due Diligence, Sustainability, & ESG Counseling
- Air Quality & Climate Change
- Brownfields and Contaminated Land Redevelopment and Reuse
- Emergency Preparedness & Response
